American Accounting Association subcommittee to respond to the FASB Discussion Memorandum on Funds Flow and Liquidity. The report of this subcommittee was sent to the FASB and a presentation was made at the hearings in New York held for this discussion memorandum.

Computerized Dietary Information System, Volume V., with J. Balintfy and L. Dennis, documentation of Public Health Service Grant HM00216-04.

SERVICE

Tulane University

Chair, Area Studies in Accounting, from August 1988 to May 2000.

Member, Freeman School Dean Search Committee.

Member, University Senate Committee on Computing.

Member, Ph.D. Committee for (a) Paul Johnstone, Department of Computer Science, School of Engineering, 1988; (b) James Schmit, Department of Electrical Engineering, School of Engineering, 1983.

Chairman, A. B. Freeman School Computer Committee.

Author, Report on MIS Curricular Strategy.

Set up Compustat and CRSP databases on new IBM 3081.

Coordinator, Accounting Research Seminar Series.

Advisor, team for the Emory business management game, 1982.

University of New Orleans (Selected)

Supervised masters' thesis, "Cash and Funds Flow Measurement and Reporting: The Usefulness of a New Approach," by Phyllis Cassidy, M.S. in Accounting awarded May, 1979.

Manuscript reviewer, Review of Business and Economic Research.

Faculty advisor, Beta Alpha Psi.

Community

Lectured on "Current Research in Finance and Accounting" and "Current Status of Computer Information Systems" at the Catholic University in Valparaiso, Chile during visit of October 4-10, 1987. Also reviewed their curricula in accounting and information systems.

Member, Chamber of Commerce Business Task Force on Education. Reviewed auditing systems of the New Orleans Public Schools. This led to the system's first audit committee.

Member, Management Information Systems delegation to China in August, 1983. Made technical presentations in Beijing, Tianjin, Shanghai, and Canton on microcomputer systems in the United States.

Unpaid consultant with three local companies leading to the purchases of a CADO system, a Wang system, and a DEC system; with a local distributor concerning the problems associated with its Burroughs system, leading to the acquisition of a DEC system and the hiring of new personnel; director of study leading to computerized financial planning system for Country Day School.

Letter to New Orleans Times-Picayune about excessive staffing of state government; two appearances on WWL-TV; two live interviews by WSMB radio; and articles in New Orleans, Baton Rouge, and Alexandria newspapers and the Tulanian.

COMMERCIAL EXPERIENCE

2000-present Consulting Accountant.

Worked with Kenneth J. Boudreaux, Ph.D., Consulting Economist, on assignments in calculation of economic loss. Calculated loss to a Fortune 500 firm for the inability of installed equipment to perform to specification. Calculated loss to an electricity producer from the failure of an equipment repair. Analyzed a statistical justification given by the plaintiff in a lawsuit against a Fortune 500 drug manufacturer. Reviewed for American International Group (AIG) Insurance claims of loss submitted by a hotel.

1975-2000 Independent Systems Consultant.

Guided computer software firm from a collapsed system through the reconstruction of records, identification of embezzlement, installation of a networked system, and subsequent audit. Set up computer system for real estate brokerage firm. Calculated land values mathematically for an Army Corps of Engineers appraisal. Set up accounting systems for a manufacturer, construction firm, professional medical corporation, pension plan and profit-sharing plan. Developed program for analysis of statistical football data, with data updated on-line. Developed program for Prentice-Hall, How to Use Your Personal Computer to Manage Your Personal Finances.

1973-74 Alexander Grant & Company, Management Consultant.

Designed cost accounting system for manufacturer; designed financial accounting and information system for school system; conducted EDP feasibility study for manufacturer; reviewed data processing for parish government; developed EDP master plan for manufacturer; reviewed data processing at a bank.

1969-73 Management Optimization Systems, Inc. (MOS), Vice President and Treasurer.

Directed system designs. Saved 554 bed hospital over \$120,000 by utilizing computer-planned diets and computer-generated production plans for the kitchen. Developed systems for Department of Corrections, City of New York. Reduced inventory by \$100,000 for 8500 bed mental hospital. Installed systems and data for other hospitals and universities. Note: MOS, of which I was a 15% owner, was absorbed into Medicus Systems and Medicus was subsequently bought by Whittaker, a Los Angeles conglomerate. The President of Whittaker-Medicus was the director of the task force on reducing federal expenditures headed by J. Peter Grace and appointed by President Reagan.

1966-69 Computer System Research, Tulane University, Programmer and System Analyst.

Handled increasingly complex programming and systems analysis assignments. Assignments included simulation experiments and linear programming. Co-author of Final Report of seven-year, \$750,000 government research project on the applications of the computer in food service.
